# N<sub>2</sub> Removal

## EPC-FRIENDLY INSTALLATION AND DESIGN:

Standard skidded designs  
for ease of installation

Full documentation  
package for foundations  
and interconnection

Field-proven operation  
downstream of multiple  
CO<sub>2</sub> technologies

---

## ENGINEERED FOR LOW OPEX:

Annual maintenance  
downtime less than  
48 hours typical

Autonomous Software  
requires minimal operator  
interaction

Equipment availability  
typically exceeds 98% with  
preventative maintenance

Operator primarily  
responsible for periodic  
leak and oil checks

---

## ENGINEERED FOR EASE OF OWNERSHIP:

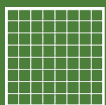

Product CH<sub>4</sub> purity  
is operator-specified

Remote monitoring available  
for troubleshooting and after-  
sales support

Inherent O<sub>2</sub> reduction  
in product gas
